

Amod Kumar (Senior Engineering Leader)

aamodkumar@gmail.com | +91 9810959801 | <https://www.linkedin.com/in/amokumar>

Career Highlights

- 21+ years building GenAI, enterprise software and cloud platforms
- Led engineering organizations of 25+ engineers including principal engineers, architects, and managers, across India, US & Europe.
- **US Patent Holder** (Oracle Cloud Platform - US 11327846).
- Built AI-powered RAG platform improving developer productivity by 40% and customer upgrade efficiency by 30-35%.
- Reduced deployment time by 60%
- Delivered 99.99% platform availability
- Enabled 30% cloud cost savings through AWS Graviton migration
- **AWS Certified** Solutions Architect Associate and Cloud Practitioner

Core Competencies

- **Engineering Leadership:** : Global Engineering Leadership, Organization Scaling, Cross-functional Collaboration, Technical Strategy, Platform Modernization, Agile Delivery, Engineering Excellence, Talent Development, Executive Stakeholder Management.
- **AI & GenAI Platforms:** Large Language Models (LLMs), RAG, Agentic RAG, AI Agents, Prompt Engineering, AI-assisted Developer Productivity, AI Platform Integration
- **Cloud Platforms:** AWS (Solutions Architect Associate, Cloud Practitioner), Google Cloud Platform (GCP), Oracle Cloud Infrastructure (OCI), Cloud-native Architecture, Multi-Cloud Platforms
- **Distributed Systems & Architecture:** Distributed Systems, Cloud-native Microservices, Event-Driven Architecture, Multi-Tenant Platforms, SaaS, PaaS, API-first Design, High Availability, Fault Tolerance, Scalability
- **Platform Engineering & DevOps:** Kubernetes, Docker, Kafka, CI/CD, Infrastructure as Code (Terraform), AWS Lambda, Observability, Monitoring
- **Data Platforms:** Oracle, MySQL, DynamoDB, Amazon RDS, Redis
- **Programming:** Java, Go, Python, SQL
- **AI Developer Tools:** Cursor, GitHub Copilot, VS Code.

Professional Experience

Founder, Sonehaat.com (June 2025-March 2026)

- Founded an e-commerce startup, driving end-to-end product strategy, platform architecture, technology selection, and execution from ideation through MVP delivery.

Senior Engineering Manager, Cloudera (Oct 2022–Jun 2025)

- Led 25+ engineers including principal engineers, architects, and **managers** across India, US and Europe.
- Built RAG-based AI support assistant improving developer productivity by 40%.
- Reduced cluster bootstrap time by 60%.
- Led nZDU, AWS Graviton migration and platform modernization delivering 99.99% availability and 30% cloud cost reduction.
- Decoupled Python runtime reducing certification effort by 50%.

Engineering Manager, 24[7].ai (Mar 2021–Sep 2022)

- Led AI-powered customer engagement platforms.
- Reduced P0/P1 incident resolution by 35%.

Senior Engineering Manager, CDK Global (May 2019–Feb 2021)

- Delivered greenfield SaaS platform with zero Sev-1 issues.
- Launched marketplace platform achieving 3M+ visits.
- Global hackathon winner.

Software Development Manager, Oracle (Nov 2006–May 2019)

- Led Oracle Cloud PaaS services.
- Filed and Earned a US patent.
- Built OCI services and reduced patch requests by 80%.

EARLY CAREER (Sapient, IGT, NIIT Technologies) | Apr'04 – Nov'06

- Played key roles in enterprise application development, solution architecture, and offshore-onshore delivery coordination for clients across travel, banking, and telecom domains. Led custom development projects using Java EE, .NET, and legacy integrations.

Education & Certifications

- MCA, IGNOU
- BCA, IGNOU
- AWS Certified Solutions Architect Associate
- AWS Certified Cloud Practitioner
